

Nakul Sharma

Senior Experience Designer

I am an impact-focused design leader specialising in user-centric experiences, scalable solutions, and innovation-driven design. I solve complex product challenges through UX strategy, research, and execution with a strong business driven approach.

[Portfolio](#) - An example of UX practices applied within different projects.
Let’s connect to discuss the real time work, UX decisions and business impact.

Work Experience

Gartner - Sr User Experience Designer

May 2023 - Present - Remote Gurugram

- Owning and leading different product experiences and driving them towards completion. Conducting User research, design strategy and then shaping the products with core UX practices as per the business requirements.
- Increased user engagement from 900 users to 2500 users, within a short span of 1 year, the product became a critical value driver directly contributing to improved client outcomes. We were successfully able to make 30% of the users to renew their subscriptions after that.

Aubergine Solutions - UX Designer - II

Dec 2022 - Mar 2023 - Remote Ahmedabad

- Conducted user research for multiple platforms, and led the UX foundation case building for within the team.
- Worked with international clients to understand their requirements, key problem areas and then built the product use cases around that.

Prescinto.ai - Product Designer

Aug 2021 - Nov 2022 - Remote Ahmedabad

- Led the end to end product design for the solar and wind monitoring IOT platform.
- Supervised the basic semantics workshops for the solar and wind turbine engineers.
- Build a drone specific thermal heat detecting platform, that monitored the performance of each solar panel on different solar farms. Integrated that functionality within the core Prescinto platform.

The company got acquired by IBM in 2024

Independent Consultant/Master’s Student - Design for Clients & Pursued Master’s in Integrated Product Design.

AUG 2019 - AUG 2021 (2yrs) Ahmedabad

- Led the UX discovery phase for university clients, while pursuing my master’s in integrated product design.
- Owned different projects involving user research, UX case building and defining the design strategy.
- Supervised small workshops with clients on problem solving, product roadmaps and structured UX approach.

Completed my Master’s (M.Des) in 2021
